- Working knowledge of C#, LINQ, and Microsoft SQL Server

## TECHNOLOGY EXPERIENCE

## EXPERIENCE

### FULL STACK SOFTWARE DEVELOPER

**Nashville Software School | July 2018 - Present**

Intensive full-time software development bootcamp focusing on full stack development fundamentals and problem solving, with the final half of the program executed in a simulated company environment with Scrum methodology.

- Hands on application of OOP fundamentals through group and individual projects reflecting real world business problems
- Source code version control with Git/GitHub
- Project management/tracking with Trello and Github Projects & Issue Tracking
- JavaScript fundamentals leveraging DRY, modular, readable code and reusable components
- Built browser-based single page applications using React, HTML, CSS and jQuery
- Task Automation with Grunt: Linting with ESLint, module bundling with Browserify
- Styled applications with CSS Frameworks, Bootstrap and Semantic UI, and wrote custom styles as needed
- Deployed applications through Firebase, GitHub Pages, and Azure
- Leveraged VirtualBox for virtualizing a Windows environment
- Learned unit testing to write testing suites for code
- Application design through white boarding dependencies and building ERD's
- Created and modified database design/content using SQL and ORM tooling, including exposure and experience with migrations
- Created RESTful APIs with C#/.NET using WebAPI
- Leveraged Razor for creating and editing MVC applications

### STORE MANAGER

**Gamestop Inc. | 2009 - 2014**

Oversaw all aspects of the day to day running of the business, including the responsibility of balancing a profit and loss report.

- Managed Inventory, Networking, Hiring, Training, and Customer Service across all levels of the store
- Achieved record rankings for Business Model metrics
- Hired, trained, and promoted leading Store Managers withing the company.

## EDUCATION HISTORY

**NASHVILLE SOFTWARE SCHOOL**  
Full Stack Bootcamp | July 2018 - Present

**MIDDLE TENNESSEE STATE UNIVERSITY**  
English Writing | 2007 - 2010

## PROJECTS

### PANTRY PERFECT

A responsive CRUD application that allows a user to track the quantity of ingredients that they regularly use in recipes to leverage how responsible they are to the money they spend on groceries.

- Built with React
- Utilized Charts.js for stats
- Styled with Semantic UI
- Implemented Tilt.js for style
- Supported by a flat data-structure in JSON.
